

Dear Maria!

- ❖ These I really like. They're clear, nice and neat, and calm or as you call them - relaxed.

Yes, though it was Rick who drew it who called it relaxed ...

- ❖ It seems like an original handwriting but the difference is that you understand EVERY word :-)

Meaning that you can't normally read every word in ordinary handwriting? :-)

- ❖ Except when they're 'Mmmmm' :-)

nnn mmm uuu vv www

- ❖ I'd like to get a letter with this handwriting :-) on computer.

Well here it is ... it was **very** valuable that you said because it was only when I started

writing this that I saw some details that needed to be refined some more!!!

- ❖ Is that Rick some teacher who has so beautiful handwriting?

Nope, he's a graphic designer

- ❖ Teachers usually have to be really careful with their letters 'on a blackboard.

Yes, but I guess other people than teachers can also care about their writing :-)

Actually he does teach painting but only because he's a painter who likes to share what he has to offer with other people ...

Thank-you **so** much for your feedback!!!

Hugs

David
