**Dot** 

**Rsq** 

*Flash and Photoshop output screen*

Use only the **"STD 12"** as a pixel font. Clean, sharp on the screen:

Use the font only at **12pt** or multiples of 12 (12,24,etc)

the Anti-aliasing set to **"None"**,

the "Kerning" feature set to "Metrics",

Horizontal and Vertical Scale set to 100%,

the tracking set to 0

the text field must be "Point Text".
